Email: donthireddyharini@gmail.com
Mobile: +91 9390599084

SKILLS SUMMARY

Languages:	C++, java, HTML5, CSS3
Frameworks & Libraries:	NumPy, Pandas, Matplotlib, Node.js
Databases:	My SQL, MongoDB
Cloud / DevOps:	Vercel, Railway, Render
Developer Tools:	Vs Code, Git, Github, Antigraity
Core Subjects:	Computer Networks, Operating System, Data Structures & Algorithms, OOP
Soft Skills:	Problem-Solving, Team Collaboration, Intellectual Curiosity
AI / LLMs:	Claude, ChatGPT, Gemini, Groq API

INTERNSHIP

Software Engineering Intern — GND Solutions Pvt Limited Certificate	Nov 2024 – May 2025
- Engineered software solutions using Java Script, applying core programming principles and structured problem-solving practices to strengthen development proficiency in real-world engineering workflows. - Developed and refined web application components with React.js, translating software requirements into modular, maintainable interfaces while building practical experience with modern frontend engineering. - Applied AWS concepts alongside JavaScript and React.js development, strengthening end-to-end understanding of cloud-enabled software engineering and preparing solutions for scalable application environments.	

PROJECTS

DSA Legends – DSA Learning Game Github Live	Jun 2026 – Jul 2026
- Engineered a browser-based DSA learning game addressing the challenge of making algorithm concepts interactive, structuring 7 progressive worlds across Arrays, Linked Lists, Stacks, Queues, Trees, and Graphs with R loops. - Implemented step-by-step Canvas visualizations alongside independently compiled Java reference implementations for core operations including searching, sorting, traversal, BFS, DFS, Dijkstra, postfix evaluation, and pointer-based linked-list operations, with the Java layer independently compiled and executed to validate algorithm behaviour. - Integrated gamification and persistent progress through timed boss battles, scenario-based quizzes, XP/coins, powers, ~24 achievements, leaderboard, learning journal, and browser local Storage, achieving a quiz threshold for world completion and deploying the zero-build application on Vercel.	
Tech Stack: HTML, CSS, JavaScript, Java, HTML Canvas API, Web Audio API, Browser Local Storage, Vercel	
LitMind – AI-Powered Literature Tutor Github Live	Jan 2026 – May 2026
- Engineered an AI literature tutor that analyses themes, symbolism, narrative techniques, poetry, and literary concepts through conversational, context-aware assistance powered by Llama models via Groq. - Built a full-stack conversational system with Node.js, Express.js, SQLite, and session management, supporting persistent chat histories, Google OAuth authentication, image-based, voice-based literary analysis, and multimodal AI interactions. - Integrated voice input, image uploads, Markdown-rendered responses, topic-driven prompts, and adaptive model selection, creating an interactive learning environment that extends beyond conventional text-only AI chatbots. and supports multiple modes of interaction.	
Tech Stack: Node.js, Express.js, JavaScript, SQLite, Groq API, Llama 3.3, Passport.js, Render	

CERTIFICATIONS / CERTIFICATES

Data Structures and Algorithms iamneo - NIT Venture	Jun 2026
Object Oriented Programming iamneo - NIT Venture	Jun 2026
Master Data Structure, Algorithms and Problem Solving Centre for Professional Enhancement	Jul 2026
Programming in java iamneo - NIT Venture	Oct 2026

ACHIEVEMENTS & EXTRACURRICULAR ACTIVITIES | [Certificates](#)

State Level Athletics Gold Medallist —Secured 4+ Gold Medals at State Level in Athletics, competing in Running	Dec 2024 -Jan 2025
AIU Athletics Participant, LPU — Represented LPU in All India Inter-University athletics, competing at the university level.	Jan 2026

EDUCATION

Lovely Professional University	Punjab, India
Bachelor of Technology in Computer Science — CGPA: 7.95	Aug 2025 – Present
Loyola Polytechnic College (Diploma)	Andhra Pradesh, India
Diploma (Computer Science and Engineering) — CGPA: 9.27	Aug 2022 – May 2025
